

Product #86515

SPECIALTY LUBRICANTS

Foaming Chain & Cable Lubricant

Penetrating Foaming Action
Fortified with Moly

Penetrating Lubricant

- Protects Against Friction, Wear, Humidity, Salt Spray, Chemical Vapors, and Water Damage
- Laboratory Tested to Withstand Salt Spray for 72 Hours and Humidity Cabinet for 60 Days
- High Pressure and Extreme Temperature Resistance

Provides a thick foam that clings to vertical surfaces. As foam breaks, lubricant penetrates into wire rope and roller chain mechanisms. Deposits a Molybdenum Disulfide-based grease and provides surfaces with superior lubricating properties. Protects against high temperature and extreme pressure environments. Grease will not break down, fly off or wash away with water or steam. Retains lubricating properties under heavy shock load, acidic environments and salt spray. Prevents surface oxidation and corrosion. Super high tack formula provides active lubricant dispersion while equipment is in operation.

FOR USE ON:

- Chains • Booms • Hoists • Saws
- Conveyors • Cables • Tow Lines
- Wire Rope • Cranes • Winches
- Bearings • Rollers

FOR USE BY:

- Shipyards • Mining • Railroads
- Factories • Construction
- Steel Mills • Road Equipment
- Material Handling Co
- Containerized Shipping Companies
